Independent Auditors' Report

**The Honorable Supervisor and Town Board
of the Town of Rye, New York**

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and each major fund of the Town of Rye, New York ("Town") as of and for the year ended December 31, 2013, and the related notes to the financial statements, which collectively comprise the Town's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

O'CONNOR DAVIES, LLP

500 Mamaroneck Avenue, Suite 301, Harrison, NY 10528 | Tel: 914.381.8900 | Fax: 914.381.8910 | www.odpkf.com

O'Connor Davies, LLP is a member firm of the PKF International Limited network of legally independent firms and does not accept any responsibility or liability for the actions or inactions on the part of any other individual member firm or firms.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the Town, as of December 31, 2013, and the respective changes in financial position, thereof, and the respective budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Schedule of Funding Progress – Other Post Employment Benefits be presented to supplement the basic financial statements. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Management has omitted the Management's Discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. Our opinions on the basic financial statements are not affected by the missing information.

Supplementary and Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town's basic financial statements. The combining and individual fund financial statements and schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Town of Rye, New York

Reconciliation of the Statement of Revenues,
Expenditures and Changes in Fund Balances of Governmental Funds
to the Statement of Activities
Year Ended December 31, 2013

Amounts Reported for Governmental Activities in the Statement of Activities are Different Because:

Net Change in Fund Balances - Total Governmental Funds \$ (620,667)

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlay exceeded depreciation expense in the current period.

Capital outlay	1,266,925
Depreciation expense	<u>(85,686)</u>
	<u>1,181,239</u>

The issuance of long-term debt provides current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net assets. Repayment of long-term debt is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net assets

Principal paid on bonds	<u>130,000</u>
-------------------------	----------------

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.

Accrued interest	(3)
Pension obligations	5,075
Compensated absences	58,836
Other post employment benefit obligations	<u>(69,069)</u>
	<u>(5,161)</u>

Change in Net Position of Governmental Activities \$ 685,411

The notes to the financial statements are an integral part of this statement.

Note 1 - Summary of Significant Accounting Policies

The Town of Rye, New York ("Town") was established in 1813 and operates in accordance with Town Law and the various other applicable laws of the State of New York. The Town Board is the legislative body responsible for overall operation. The Town Supervisor serves as both the chief executive and chief financial officer. The Town provides the following services to its residents: transportation, culture and recreation, home and community services and general and administrative support.

The accounting policies of the Town conform to generally accepted accounting principles as applicable to governmental units and the Uniform System of Accounts as prescribed by the State of New York. The Governmental Accounting Standards Board ("GASB") is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The following is a summary of the Town's more significant accounting policies:

A. Financial Reporting Entity

The financial reporting entity consists of a) the primary government, which is the Town, b) organizations for which the Town is financially accountable and c) other organizations for which the nature and significance of their relationship with the Town are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete as set forth by GASB.

In evaluating how to define the Town, for financial reporting purposes, management has considered all potential component units. The decision to include a potential component unit in the Town's reporting entity was made by applying the criteria set forth by GASB, including legal standing, fiscal dependency and financial accountability. Based upon the application of these criteria, there are no other entities which would be included in the financial statements

The Town participates in a joint venture for the operation of the Rye Town Park ("Park"). The Park was established in 1907 by the New York State Legislature pursuant to Chapter 711 of the Laws of 1907. The Park provides recreational activities to the public, and is governed by a Commission, which has full charge and supervision over the capital improvements, operations, and maintenance of the Park. The Commission consists of six members: the Supervisor of the Town of Rye, the Mayor of the City of Rye, the Mayor of the Village of Port Chester, the Mayor of the Village of Rye Brook, one Commissioner appointed by the City Council of the City of Rye, and one Commissioner appointed by the Town Board of the Town of Rye. The Town has an ongoing financial responsibility in that the annual income or loss resulting from the Park's activities is shared proportionally by the Town of Rye and the City of Rye, using a calculation based on their equalized assessed valuation. Complete separate financial statements for the Park may be obtained from the Town of Rye, 10 Pearl Street, Port Chester, New York 10573.

B. Government-Wide Financial Statements

The government-wide financial statements (i.e. the Statement of Net Position and the Statement of Activities) report information on all non-fiduciary activities of the primary government as a whole. For the most part, the effect of interfund activity has been removed from these statements, except for interfund services provided and used. Governmental activities are supported by taxes, departmental income and intergovernmental revenues.

Note 1 - Summary of Significant Accounting Policies (Continued)

The Statement of Net Position presents the financial position of the Town at the end of its fiscal year. The Statement of Activities demonstrates the degree to which direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include (1) charges to customers or applicants who purchase, use or directly benefit from goods or services, or privileges provided by a given function or segment, (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment and (3) interest earned on grants that is required to be used to support a particular program. Taxes and other items not identified as program revenues are reported as general revenues. The Town does not allocate indirect expenses to functions in the Statement of Activities.

Separate financial statements are provided for governmental funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

C. Fund Financial Statements

The accounts of the Town are organized and operated on the basis of funds. A fund is an independent fiscal and accounting entity with a self-balancing set of accounts which comprise its assets, deferred outflows of resources, liabilities, deferred inflows of resources, fund balances/net position, revenues and expenditures/expenses. Fund accounting segregates funds according to their intended purpose and is used to aid management in demonstrating compliance with finance related legal and contractual provisions. The Town maintains the minimum number of funds consistent with legal and managerial requirements. The focus of governmental fund financial statements is on major funds as that term is defined in professional pronouncements. Each major fund is to be presented in a separate column, with non-major funds, if any, aggregated and presented in a single column. Since the governmental fund statements are presented on a different measurement focus and basis of accounting than the government-wide statements' governmental activities column, a reconciliation is presented on the pages following, which briefly explain the adjustments necessary to transform the fund based financial statements into the governmental activities column of the government-wide presentation. The Town's resources are reflected in the fund financial statements in one broad fund category, in accordance with generally accepted accounting principles as follows:

Fund Categories

- a. Governmental Funds - Governmental Funds are those through which most general government functions are financed. The acquisition, use and balances of expendable financial resources and the related liabilities are accounted for through governmental funds. The following are the Town's major governmental funds.

General Fund - The General Fund constitutes the primary fund of the Town and is used to account for and report all financial resources not accounted for and reported in another fund.

Capital Projects Fund - The Capital Projects Fund is used to account for and report financial resources that are restricted, committed or assigned for capital outlay, including the acquisition or construction of major capital facilities and other capital assets.

Note 1 - Summary of Significant Accounting Policies (Continued)

D. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as current financial resources (current assets less current liabilities) or economic resources (all assets and liabilities). The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. Property taxes are considered to be available if collected within sixty days of the fiscal year end. A ninety day availability period is used for revenue recognition for all other governmental fund revenues. Property taxes associated with the current fiscal period as well as charges for services and intergovernmental revenues are considered to be susceptible to accrual and have been recognized as revenues of the current fiscal period. Fees and other similar revenues are not susceptible to accrual because generally they are not measurable until received in cash. If expenditures are the prime factor for determining eligibility, revenues from Federal and State grants are accrued when the expenditure is made. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, certain pension costs and other post employment benefit obligations payable are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

E. Assets, Liabilities, Deferred Outflows/Inflows of Resources and Net Position or Fund Balances

Deposits, Investments and Risk Disclosure

Cash and Equivalents - Cash and equivalents consist of funds deposited in demand deposit accounts, time deposit accounts and certificates of deposit with original maturities of less than three months.

The Town's investment policies are governed by State statutes. The Town has adopted its own written investment policy which provides for the deposit of funds in FDIC insured commercial banks or trust companies located within the State. The Town is authorized to use demand deposit accounts, time deposit accounts and certificates of deposit. Permissible investments include obligations of the U.S. Treasury, U.S. Agencies, repurchase agreements and obligations of New York State or its political subdivisions.

Note 1 - Summary of Significant Accounting Policies (Continued)

Collateral is required for demand deposit accounts, time deposit accounts and certificates of deposit at 100% of all deposits not covered by Federal deposit insurance. The Town has entered into custodial agreements with the various banks which hold their deposits. These agreements authorize the obligations that may be pledged as collateral. Such obligations include, among other instruments, obligations of the United States and its agencies and obligations of the State and its municipal and school district subdivisions.

Custodial credit risk is the risk that in the event of a bank failure, the Town's deposits may not be returned to it. GASB Statement No. 40 directs that deposits be disclosed as exposed to custodial credit risk if they are not covered by depository insurance and the deposits are either uncollateralized, collateralized by securities held by the pledging financial institution or collateralized by securities held by the pledging financial institution's trust department but not in the Town's name. The Town's aggregate bank balances that were not covered by depository insurance were not exposed to custodial credit risk at December 31, 2013.

Investments - The Commission participates in the Cooperative Liquid Assets Securities System ("CLASS"), a cooperative investment pool, established pursuant to General Municipal Law that meets the definition of a 2a7-like pool. In accordance with the provisions of General Municipal Law, Article 3A, CLASS has designated PT Asset Management, a subsidiary of Public Trust as its registered investment advisor. Public Trust Advisors, LLC is registered with the Securities and Exchange Commission ("SEC"), and is subject to all of the rules and regulations of an investment advisor handling public funds. As such, the SEC provides regulatory oversight of CLASS.

The pool is authorized to invest in various securities issued by the United States and its agencies. The amount represents the amortized cost of the cooperative shares and is considered to approximate fair value. The Town's position in the pool is equal to the value of the pool shares. Additional information concerning the cooperative is presented in the annual report of CLASS, which may be obtained from MBIA Municipal Investors Service Corporation, 113 King Street, Armonk, NY 10504.

CLASS is rated AAAM by Standard & Poor's. Local government investment cooperatives in this rating category meet the highest standards for credit quality, conservative investment policies and safety of principal. The cooperative invests in a high quality portfolio of investments legally permissible for municipalities and school districts in the State.

The Town was invested only in the above mentioned obligations and, accordingly, was not exposed to any interest rate risk or credit risk.

Taxes Receivable - Real property taxes attach as an enforceable lien and are levied on January 1st. The Town collects county, town and special district taxes, which are due April 1st and payable without penalty to April 30th. School taxes for the period July 1st to June 30th levied on July 1st and are due on September 1st, with the first half payable without penalty until September 30th and the second half due the following January 1st and payable without penalty until January 31st. The Town guarantees the full payment of the County and school district warrants and assumes the responsibility for uncollected taxes. The Town also has the responsibility for conducting tax lien sales and in rem foreclosure proceedings.

The Town functions in both a fiduciary and guarantor relationship with the County of Westchester and the various school districts located within the Town with respect to the collection and payment

Note 1 - Summary of Significant Accounting Policies (Continued)

of real property taxes levied by such jurisdictions. County taxes are included in the Town's levy and are payable without penalty for thirty days. The County Charter provides for the Town to collect County and school districts taxes and remit them as collected to the respective municipality. However, the Town must remit to the County sixty percent of the amount levied by May 25th and the balance of forty percent on October 15th. With respect to school districts taxes, the Charter provides that the Town satisfy the warrant of each school district by April 5th. Thus, the Town's fiduciary responsibility is from the date of the levy until the due date of the respective tax warrant at which time the Town must satisfy its obligation to the municipalities regardless of the amounts collected. The County tax warrant is due in October and uncollected County taxes have been accounted for in a manner similar to Town taxes. The collection of school districts taxes is deemed a financing transaction until the warrants are satisfied.

Other Receivables - Other receivables include amounts due from other governments and individuals for services provided by the Town. Receivables are recorded and revenues recognized as earned or as specific program expenditures/expenses are incurred. Allowances are recorded when appropriate.

Due From/To Other Funds - During the course of its operations, the Town has numerous transactions between funds to finance operations, provide services and construct assets. To the extent that certain transactions between funds had not been paid or received as of December 31, 2013, balances of interfund amounts receivable or payable have been recorded in the fund financial statements.

Inventories - There are no inventory values presented in the balance sheets of the respective funds of the Town. Purchases of inventoriable items at various locations are recorded as expenditures at the time of purchase and year-end balances at these locations are not material.

Prepaid Expenses/Expenditures - Certain payments to vendors reflect costs applicable to future accounting periods, and are recorded as prepaid items using the consumption method in both the government-wide and fund financial statements. Prepaid expenses/expenditures consist of costs which have been satisfied prior to the end of the fiscal year, but represent items which have been provided for in the subsequent year's budget and/or will benefit such periods. Reported amounts in governmental funds are equally offset by nonspendable fund balance, in the fund financial statements, which indicates that these amounts do not constitute "available spendable resources" even though they are a component of current assets.

Capital Assets - Capital assets, which include property, plant, equipment and infrastructure assets (e.g., roads, bridges, sidewalks and similar items) are reported in the applicable governmental or business type activities column in the government-wide financial statements. Capital assets are defined by the Town as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

In the case of the initial capitalization of general infrastructure assets (i.e., those reported by governmental activities), the Town chose to include all such items regardless of their acquisition date or amount. The Town was able to estimate the historical cost for the initial reporting of these assets through backtrending (i.e., estimating the current replacement cost of the infrastructure to be capitalized by using an appropriate price-level index to deflate the cost to the acquisition year or estimated acquisition year).

Note 1 - Summary of Significant Accounting Policies (Continued)

Major outlays for capital assets and improvements are capitalized as projects are constructed. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives is not capitalized.

Land and construction-in-progress are not depreciated. Property, plant and equipment of the primary government, as well as the component unit, are depreciated using the straight line method over the following estimated useful lives.

<u>Class</u>	<u>Life in Years</u>
Buildings and improvements	35-60
Machinery and equipment	5-25
Infrastructure	7-50

The costs associated with the acquisition or construction of capital assets are shown as capital outlay expenditures on the governmental fund financial statements. Capital assets are not shown on the governmental fund balance sheet.

Deferred Outflows/Inflows of Resources - In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to a future period and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to a future period and so will not be recognized as an inflow of resources (revenue) until that time.

As of December 31, 2013, no amounts were required to be reported as deferred outflows/inflows of resources.

Long-Term Liabilities - In the government-wide financial statements, long-term debt and other long-term liabilities are reported as liabilities in the Statement of Net Position. Bond premiums and discounts are deferred and amortized over the life of the bonds. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are expensed as incurred.

In the fund financial statements, governmental funds recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as Capital Projects Fund expenditures.

Compensated Absences - The various collective bargaining agreements provide for the payment of accumulated vacation and sick leave upon separation from service. The liability for such accumulated leave is reflected in the government-wide and proprietary fund financial statements as current and long-term liabilities. A liability for these amounts is reported in the governmental funds only if the liability has matured through employee resignation or retirement. The liability for compensated absences includes salary related payments, where applicable.

Note 1 - Summary of Significant Accounting Policies (Continued)

Net Position - Net position represent the difference between assets, deferred outflows of resources, liabilities and deferred inflows of resources. Net position is reported as restricted when there are limitations imposed on its use either through the enabling legislation adopted by the Town or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. Net position on the Statement of Net Position includes, net investment in capital assets. The balance is classified as unrestricted.

Fund Balance - Generally, fund balance represents the difference between current assets and deferred outflows of resources and current liabilities and deferred inflows of resources. In the fund financial statements, governmental funds report fund classifications that comprise a hierarchy based primarily on the extent to which the Town is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. Under this standard the fund balance classifications are as follows.

Nonspendable fund balance includes amounts that cannot be spent because they are either not in spendable form (inventories, prepaid amounts, long-term receivables, advances) or they are legally or contractually required to be maintained intact (the corpus of a permanent fund).

Restricted fund balance is reported when constraints placed on the use of the resources are imposed by grantors, contributors, laws or regulations of other governments or imposed by law through enabling legislation. Enabling legislation includes a legally enforceable requirement that these resources be used only for the specific purposes as provided in the legislation. This fund balance classification is used to report funds that are restricted for debt service obligations and for other items contained in General Municipal Law of the State of New York.

Committed fund balance is reported for amounts that can only be used for specific purposes pursuant to formal action of the entity's highest level of decision making authority. The Town is the highest level of decision making authority for the Town that can, by the adoption of a resolution prior to the end of the fiscal year, commit fund balance. Once adopted, these funds may only be used for the purpose specified unless the Town Board removes or changes the purpose by taking the same action that was used to establish the commitment. This classification includes certain amounts established and approved by the Town Board.

Assigned fund balance, in the General Fund, represents amounts constrained either by policies of the Town Board for amounts assigned for balancing the subsequent year's budget or the Town Supervisor for amounts assigned for encumbrances. Unlike commitments, assignments generally only exist temporarily, in that additional action does not normally have to be taken for the removal of an assignment. An assignment cannot result in a deficit in the unassigned fund balance in the General Fund. Assigned fund balance in all other governmental funds represents any positive remaining amount after classifying nonspendable, restricted or committed fund balance amounts.

Unassigned fund balance, in the General Fund, represents amounts not classified as nonspendable, restricted, committed or assigned. The General Fund is the only fund that would report a positive amount in unassigned fund balance. For all governmental funds other than the General Fund, unassigned fund balance would necessarily be negative, since the fund's liabilities and deferred inflows of resources, together with amounts

Note 1 - Summary of Significant Accounting Policies (Continued)

already classified as nonspendable, restricted and committed would exceed the fund's assets and deferred outflows of resources.

In order to calculate the amounts to report as restricted and unrestricted fund balance in the governmental fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. When both restricted and unrestricted amounts of fund balance are available for use for expenditures incurred, it is the Town's policy to use restricted amounts first and then unrestricted amounts as they are needed. For unrestricted amounts of fund balance, it is the Town's policy to use fund balance in the following order: committed, assigned, and unassigned.

F. Encumbrances

In governmental funds, encumbrance accounting, under which purchase orders, contracts and other commitments for the expenditure of monies are recorded in order to reserve applicable appropriations, is generally employed as an extension of formal budgetary integration. The Town has not yet implemented an encumbrance system.

G. Use of Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, deferred outflows of resources, liabilities and deferred inflows of resources and disclosures of contingent assets and liabilities at the date of the financial statements. Estimates also affect the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

H. Subsequent Events Evaluation by Management

Management has evaluated subsequent events for disclosure and/or recognition in the financial statements through the date that the financial statements were available to be issued, which date is September 2, 2014.

Note 2 - Stewardship, Compliance and Accountability

A. Budgetary Data

The Town generally follows the procedures enumerated below in establishing the budgetary data reflected in the financial statements:

- a) Between the 5th and 10th of October, the Town Board shall prepare and approve a preliminary budget. The preliminary budget includes the estimated revenues and expenditures for the ensuing fiscal year.
- b) Immediately after the preliminary budget has been prepared and approved, the Town Board shall file the original copy with the Town Clerk where it shall be available for inspection by the public. In addition, the Town Board shall adopt a resolution specifying the time and place of a public hearing, which shall be held on or before October 30th.

Note 2 - Stewardship, Compliance and Accountability (Continued)

- c) At the public hearing, taxpayers may comment on the preliminary budget.
- d) Within five days after the hearing, the Town Board shall adopt the preliminary budget as originally compiled or it may, by a majority vote, diminish or reject certain items contained therein as prescribed by law.
- e) Formal budgetary integration is employed during the year as a management control device for the General Fund.
- f) The budget for the General Fund is legally adopted annually on a basis consistent with generally accepted accounting principles. The Capital Projects Fund is budgeted on a project basis.
- g) The Town Board has established legal control of the budget at the function level of expenditures. Transfers between appropriation accounts, at the function level, require approval by the Town Board. Any modification to appropriations resulting from an increase in revenue estimates or supplemental reserve appropriations also require a majority vote by the Board.
- h) Appropriations in the General Fund lapse at the end of the fiscal year, except that outstanding encumbrances are reappropriated in the succeeding year pursuant to the Uniform System of Accounts promulgated by the Office of the State Comptroller.

Budgeted amounts are as originally adopted or as amended by the Town Board.

B. Property Tax Limitation

The Town is not limited as to the maximum amount of real property taxes which may be raised. However, on June 24, 2011, the Governor signed Chapter 97 of the Laws of 2011 ("Tax Levy Limitation Law"). This applies to all local governments.

The Tax Levy Limitation Law restricts the amount of real property taxes that may be levied by a Town in a particular year, beginning with the 2012 year. It expires on June 16, 2016.

The following is a brief summary of certain relevant provisions of the Tax Levy Limitation Law. The summary is not complete and the full text of the Tax Levy Limitation Law should be read in order to understand the details and implementations thereof.

The Tax Levy Limitation Law imposes a limitation on increases in the real property tax levy, subject to certain exceptions. The Tax Levy Limitation Law permits the Town to increase its overall real property tax levy over the tax levy of the prior year by no more than the "Allowable Levy Growth Factor," which is the lesser of one and two-one hundredths or the sum of one plus the Inflation Factor; provided, however that in no case shall the levy growth factor be less than one. The "Inflation Factor" is the quotient of: (i) the average of the National Consumer Price Indexes determined by the United States Department of Labor for the twelve-month period ending six months prior to the start of the coming fiscal year minus the average of the National Consumer Price Indexes determined by the United States Department of Labor for the twelve-month period ending six months prior to the start of the prior fiscal year, divided by (ii) the average of the National Consumer Price Indexes determined by the United States with the result expressed as a decimal to four places. The Town is required to calculate its tax levy limit for the

Note 2 - Stewardship, Compliance and Accountability (Continued)

upcoming year in accordance with the provision above and provide all relevant information to the New York State Comptroller prior to adopting its budget. The Tax Levy Limitation Law sets forth certain exclusions to the real property tax levy limitation of the Town, including exclusions for certain portions of the expenditures for retirement system contributions and tort judgments payable by the Town. The Town Board may adopt a budget that exceeds the tax levy limit for the coming fiscal year, only if the Town Board first enacts, by a vote of at least sixty percent of the total voting power of the Town Board, a local law to override such limit for such coming fiscal year.

C. Application of Accounting Standards

For the year ended December 31, 2013, the Town implemented GASB Statement No. 65 "*Items Previously Reported as Assets and Liabilities*". This statement establishes accounting and financial reporting standards that reclassify, as deferred outflows/inflows of resources, certain items that were previously reported as assets and liabilities. This statement also recognizes as outflows of resources (expenses or expenditures) or inflows of resources (revenues), certain items that were previously reported as assets and liabilities.

D. Excess of Actual Expenditures Over Budget

The following departments in the General Fund exceeded their budgetary authorization by the amounts indicated:

General Government Support		
Executive	\$	24,706
Elections		1,390
Law		85,205
Public Information		2,579
Unallocated insurance		1,057
Culture and Recreation		
Celebrations		3,000
Home and Community Services		
Model American Community		18,001
Veterans services		10,732
Employee Benefits		
Employees Retirement		85,542
Debt Service - Interest		
Bond anticipation note		3,940

E. Fund Deficits

The deficit in the Capital Projects Fund arises because of the application of generally accepted accounting principles to the financial reporting of such funds. The proceeds of bond anticipation notes issued to finance construction of capital projects are not recognized as an "other financing source". Liabilities for bond anticipation notes payable are accounted for in the Capital Projects Fund. Bond anticipation notes are recognized as revenue only to the extent that they are redeemed. These deficits will be reduced or eliminated as the bond anticipation notes are redeemed from interfund transfers from other governmental funds or converted to permanent financing.

Town of Rye, New York

Notes to Financial Statements (Continued)
December 31, 2013

Note 3 - Detailed Notes on All Funds

A. Due From/To Other Funds

The balances reflected as due from/to other funds at December 31, 2013 were as follows:

<u>Fund</u>	<u>Due From</u>	<u>Due To</u>
General	\$ -	\$ 546,541
Capital Projects	546,541	-
	<u>\$ 546,541</u>	<u>\$ 546,541</u>

The outstanding balances between funds result mainly from the time lag between the dates that 1) interfund goods and services are provided or reimbursable expenditures occur, 2) transactions are recorded in the accounting system and 3) payments between funds are made.

B. Taxes Receivable

Taxes receivable at December 31, 2013 consisted of the following:

Town, County and Village taxes - Current	\$ 418,979
School districts taxes - current	40,364,659
Tax liens	2,062,874
Property acquired for taxes	<u>108,722</u>
	42,955,234
Allowance for uncollectable taxes	<u>(108,722)</u>
	<u>\$ 42,846,512</u>

School district and village taxes are offset by liabilities to the school districts and villages which will be paid no later than April 2014. Taxes receivable, at the fund level, represent an estimate of the receivable which will not be collected within the first sixty days of the subsequent year. School district and village taxes receivable in the amount of \$681,853 are also classified as nonspendable fund balance in the fund financial statements, which represents an estimate of taxes receivable that will not be collected within the subsequent year.

C. Capital Assets

Changes in the Town's capital assets are as follows:

	<u>Balance January 1, 2013</u>	<u>Additions</u>	<u>Balance December 31, 2013</u>
Capital Assets, not being depreciated			
Land	\$ 844,850	\$ -	\$ 844,850
Construction-in-progress	<u>312,160</u>	<u>1,248,359</u>	<u>1,560,519</u>
Total Capital Assets, not being depreciated	<u>\$ 1,157,010</u>	<u>\$ 1,248,359</u>	<u>\$ 2,405,369</u>

Town of Rye, New York

Notes to Financial Statements (Continued)
December 31, 2013

Note 3 - Detailed Notes on All Funds (Continued)

	Balance January 1, 2013	Additions	Balance December 31, 2013
Capital Assets, being depreciated			
Buildings	\$ 298,000	\$ -	\$ 298,000
Building improvements	1,233,648	-	1,233,648
Machinery and equipment	369,279	18,566	387,845
Infrastructure	835,039	-	835,039
Total Capital Assets, being depreciated	2,735,966	18,566	2,754,532
Less Accumulated Depreciation for			
Buildings	246,181	5,320	251,501
Building improvements	634,477	40,389	674,866
Machinery and equipment	317,014	23,276	340,290
Infrastructure	150,309	16,701	167,010
Total Accumulated Depreciation	1,347,981	85,686	1,433,667
Total Capital Assets, being depreciated, net	\$ 1,387,985	\$ (67,120)	\$ 1,320,865
Capital Assets, net	\$ 2,544,995	\$ 1,181,239	\$ 3,726,234

Depreciation expense was charged to the Town's functions and programs as follows:

Governmental Activities:	
General government support	\$ 36,537
Culture and recreation	49,149
Total Depreciation Expense	\$ 85,686

D. Pension Plans

The primary government participates in the New York State and Local Employees' Retirement System ("ERS") ("System"). The System is a cost-sharing multiple-employer defined benefit pension plan. The System provides retirement, disability and death benefits to plan members. Obligations of employers and employees to contribute and benefits to employees are governed by the New York State Retirement and Social Security Law. The System issues a publicly available financial report that includes financial statements and required supplementary information for the Systems. That report may be obtained by writing to the New York State and Local Employees' Retirement System, 110 State Street, Albany, New York 12224.

Funding Policy - The System is non-contributory except for employees in tiers 3 and 4 that have less than ten years of service, who contribute 3% of their salary and employees in tier 5 who also contribute 3% of their salary without regard to their years of service and employees in tier 6 who contribute between 3% and 6% depending on salary levels and also without regard to years of service. Contributions are certified by the State Comptroller and expressed as a percentage of members' salary. Contribution rates are actuarially determined and based upon membership tier

Town of Rye, New York

Notes to Financial Statements (Continued)
December 31, 2013

Note 3 - Detailed Notes on All Funds (Continued)

and plan. Contributions consist of a life insurance portion and a regular pension contribution. Contribution rates for the plan year ended March 31, 2014 are as follows:

	<u>Tier/Plan</u>	<u>Rate</u>
ERS	1 75I	28.5 %
	3 A14	20.8
	4 A15	20.8
	5 A15	16.7
	6 A15	11.4

Contributions made to the Systems for the current and two preceding years were as follows:

	<u>ERS</u>
2013	\$ 255,542
2012	213,586
2011	174,523

These contributions were equal to 100% of the actuarially required contributions for each respective fiscal year.

The current ERS contribution for the Town was charged to the General Fund.

E. Short-Term Capital Borrowings

	<u>Year of Original Issue</u>	<u>Maturity Date</u>	<u>Rate of Interest</u>	<u>Balance January 1, 2013</u>	<u>Issued</u>	<u>Balance December 31, 2013</u>
Capital Projects Fund Various purposes	10/18/2012	10/17/2014	1.600 %	\$ 2,000,000	\$ -	\$ 2,000,000

Liabilities for bond anticipation notes are generally accounted for in the Capital Projects Fund. Bond anticipation notes issued for judgments or settled claims are recorded in the fund paying the claim. Principal payments on bond anticipation notes must be made annually. State law requires that bond anticipation notes issued for capital purposes or judgments be converted to long-term obligations generally within five years after the original issue date. However, bond anticipation notes issued for assessable improvement projects may be renewed for periods equivalent to the maximum life of the permanent financing, provided that stipulated annual reductions of principal are made.

Interest expenditures of \$27,500 were recorded in the fund financial statements in the General Fund. Interest expense of \$28,250 was recorded in the government-wide financial statements.

Town of Rye, New York

Notes to Financial Statements (Continued)
December 31, 2013

Note 3 - Detailed Notes on All Funds (Continued)

F. Long-Term Indebtedness

The following table summarizes changes in the primary government's and component unit's long-term indebtedness for the year ended December 31, 2013:

	Balance January 1, 2013	New Issues/ Additions	Maturities and/or Payments	Balance December 31, 2013	Due Within One Year
Bonds Payable	\$ 690,000	\$ -	\$ 130,000	\$ 560,000	\$ 130,000
Pension Obligations	10,403	-	5,075	5,328	5,328
Compensated Absences	171,187	-	58,836	112,351	11,000
Other Post Employment Benefit Obligations Payable	542,106	200,781	131,712	611,175	-
	<u>\$ 1,413,696</u>	<u>\$ 200,781</u>	<u>\$ 325,623</u>	<u>\$ 1,288,854</u>	<u>\$ 146,328</u>

Each governmental funds' liability for compensated absences, pension obligations and other post employment benefit obligations payable is liquidated primarily by the General Fund. The Town's indebtedness for bonds and statutory installment bond debt is satisfied by the General Fund.

Bonds Payable

Bonds payable at December 31, 2013 are comprised of the following individual issue:

Purpose	Year of Issue	Original Issue Amount	Final Maturity	Interest Rates	Amount Outstanding at December 31, 2012
Parkland Acquisition	2004	\$ 700,000	December, 2014	4.05 %	\$ 70,000
Rye Town Park Roof Renovations	2010	658,000	February, 2020	4.25	490,000
					<u>\$ 560,000</u>

Interest expenditures of \$25,020 was recorded in the General Fund fund financial statements. Interest expense of \$24,273 was recorded in the government-wide financial statements.

Payments to Maturity

The annual requirements to amortize all bonded and pension obligation debt outstanding as of December 31, 2013, including interest payments of \$74,252 are as follows:

Town of Rye, New York

Notes to Financial Statements (Continued)
December 31, 2013

Note 3 - Detailed Notes on All Funds (Continued)

Year Ended December 31,	Bonds		Pension Obligations		Total	
	Principal	Interest	Principal	Interest	Principal	Interest
2014	\$ 130,000	\$ 20,460	\$ 5,328	\$ 267	\$ 135,328	\$ 20,727
2015	65,000	15,669	-	-	65,000	15,669
2016	70,000	13,300	-	-	70,000	13,300
2017	70,000	10,588	-	-	70,000	10,588
2018	75,000	7,688	-	-	75,000	7,688
2019 - 2020	150,000	6,280	-	-	150,000	6,280
	<u>\$ 560,000</u>	<u>\$ 73,985</u>	<u>\$ 5,328</u>	<u>\$ 267</u>	<u>\$ 565,328</u>	<u>\$ 74,252</u>

The above general obligation bonds are direct obligations of the Town for which its full faith and credit are pledged and are payable from taxes levied on all taxable real property within the Town.

Pension Obligations

Chapter 620 of the Law of 2004 authorized local governments to amortize the portion of their respective contribution which exceeded 9.5% of covered payroll, over a ten year period, commencing in 2005. The amortization payment would include interest at 5% per annum. The balance due at December 31, 2013 is \$5,328.

Compensated Absences

The various collective bargaining agreements provide for the payment of accumulated vacation and sick leave upon separation from service. Vacation time earned by CSEA employees is paid out at separation. CSEA employees, who have completed at least five (5) years of service, can also receive payment for any unused sick leave credits up to 65 days. The value of this accumulated time is payable upon separation of service. The value of all compensated absences has been reflected in the government-wide financial statements.

Other Post Employment Benefit Obligations

In addition to providing pension benefits, the Town provides certain health care benefits for retired employees through a single employer defined benefit plan. The various collective bargaining agreements stipulate the employees covered and the percentage of contribution. Contributions by the Town may vary according to length of service. Substantially all of the Town's employees may become eligible for those benefits if they reach normal retirement age while working for the Town. The cost of retiree health care

The Town's annual other post employment benefit ("OPEB") cost (expense) is calculated based on the annual required contribution, ("ARC"), an amount actuarially determined in accordance with the parameters of GASB Statement No. 45. GASB Statement No. 45 establishes standards for the measurement, recognition and display of the expenses and liabilities for retirees' medical insurance. As a result, reporting of expenses and liabilities will no longer be done under the "pay-as-you-go" approach. Instead of expensing the current year premiums paid, a per capita claims cost will be

Note 3 - Detailed Notes on All Funds (Continued)

determined, which will be used to determine a "normal cost", an "actuarial accrued liability", and ultimately the ARC. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover the normal cost each year and amortize any unfunded actuarial liabilities over a period not to exceed thirty years.

Actuarial valuations for OPEB plans involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. These amounts are subject to continual revision as results are compared to past expectations and new estimates are made about the future. Calculations are based on the OPEB benefits provided under the terms of the substantive plan in effect at the time of each valuation and on the pattern of sharing of costs between the employer and plan members to that point. In addition, the assumptions and projections utilized do not explicitly incorporate the potential effects of legal or contractual funding limitations on the pattern of cost sharing between the employer and plan members in the future. The actuarial calculations of the OPEB plan reflect a long-term perspective.

The Town is required to accrue on the government-wide and proprietary fund financial statements the amounts necessary to finance the plan as actuarially determined, which is equal to the expected rate of return on the Town's general assets. Funding for the Plan has been established on a pay-as-you-go basis. The assumed rates of increase in post retirement benefits are as follows:

Fiscal Year	Healthcare Inflation Assumption
2014	9.0 %
2015	8.5
2016	8.0
2017	7.5
2018	7.0
2019	6.5
2020	6.0
2021	5.5
2022	5.0

The amortization basis is the level dollar method with an open amortization approach with 24 years remaining in the amortization period. The actuarial assumptions include a 4.5% investment rate of return. The Town currently has no assets set aside for the purpose of paying post employment benefits. The actuarial cost method utilized was the projected unit credit method. A separate postemployment benefit plan report is not available.

The number of participants as of December 31, 2013 was as follows:

Active Employees	14
Retired Employees	<u>12</u>
Total	<u><u>26</u></u>

Town of Rye, New York

Increase in Net OPEB Obligation	69,069
Net OPEB Obligation - Beginning of Year	<u>542,106</u>
Net OPEB Obligation - End of Year	<u>\$ 611,175</u>

The Town's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan and the net OPEB obligation for the current and the preceding year is as follows:

Fiscal Year Ended December 31,	Annual OPEB Cost	Percentage of Annual OPEB Cost Contributed	Net OPEB Obligation
2013	\$ 200,781	65.6 %	\$ 611,175
2012	193,818	68.0	542,106
2011	350,000	45.7	480,000

The schedule of funding progress for the OPEB plan immediately following the notes to the financial statements presents multi-year trend information about whether the actuarial value of the plan assets is increasing or decreasing relative to the actuarial accrued liability for the benefits over time.

G. Net Position

The components of net position are detailed below

Net Investment in Capital Assets - the component of net position that reports the difference between capital assets less both the accumulated depreciation and the outstanding balance of debt, excluding unexpended proceeds, that is directly attributable to the acquisition, construction or improvement of those assets.

Town of Rye, New York

Notes to Financial Statements (Continued)
December 31, 2013

Note 3 - Detailed Notes on All Funds (Continued)

Unrestricted - all other amounts that do not meet the definition of "restricted" or "net investment in capital assets".

H. Fund Balances

	2013			2012		
	General Fund	Capital Projects Fund	Total	General Fund	Capital Projects Fund	Total
Nonspendable						
Long term receivables	\$ 681,853	\$ -	\$ 681,853	\$ 730,332	\$ -	\$ 730,332
Prepaid expenditures	62,251	-	62,251	59,275	-	59,275
Total Nonspendable	744,104	-	744,104	789,607	-	789,607
Assigned						
Subsequent year's expenditures	-	-	-	365,000	-	365,000
Unassigned	1,812,294	(1,453,459)	358,835	755,533	(186,534)	568,999
Total Fund Balances	<u>\$ 2,556,398</u>	<u>\$ (1,453,459)</u>	<u>\$ 1,102,939</u>	<u>\$ 1,910,140</u>	<u>\$ (186,534)</u>	<u>\$ 1,723,606</u>

Certain elements of fund balance are described above. Those additional elements, which are not reflected in the Statement of Net Position but are reported in the governmental funds balance sheet are described below.

Long-term receivables represents funds set aside to indicate the long-term nature of taxes receivable collected for other governments. These funds are not "available" for appropriation or expenditure even though they are a component of current assets.

Prepaid Expenditures has been established to account for payments made in advance. The amount is classified as nonspendable to indicate that funds are not "available" for appropriation or expenditure even though they are a component of current assets.

Subsequent year's expenditures represent that at December 31, 2013, the Town Board has assigned the above amounts to be appropriated from the ensuing year's budget.

Unassigned fund balance in the General Fund represents amounts not classified as nonspendable, restricted, committed or assigned. Unassigned fund balance in the Capital Projects Fund represent the deficit balance in the projects.

Note 4 - Summary Disclosure of Significant Contingencies

A. Litigation

The Town, in common with other municipalities, receives numerous notices of claims for money damages occurring from false arrest, property damage or personal injury. All of the claims currently pending have been referred to the insurance carrier and none are expected to have a material effect on the Town's financial position, if adversely settled.

Town of Rye, New York

Notes to Financial Statements (Concluded)
December 31, 2013

Note 4 - Summary Disclosure of Significant Contingencies (Continued)

There are currently pending certiorari proceedings, the results of which could require the payment of future tax refunds by the Town if existing assessment rolls are modified based upon the outcome of the litigation proceedings. However, the amount of possible refunds cannot be determined at the present time. Any refunds resulting from adverse settlements will be funded in the year in which the payments are made.

B. Risk Management

The Town purchases various insurance coverages to reduce its exposure to loss. The Town maintains general liability and public entity management liability insurance coverage, with policy limits of \$2 million. The Town also maintains an umbrella policy which provides coverage up to \$10 million. Workers' compensation is secured with statutory coverages. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years. The Town also purchases conventional health insurance from various providers.

C. Contingencies

The Town participates in various Federal grant programs. These programs are subject to program compliance audits pursuant to the Single Audit Act. The amount of expenditures which may be disallowed by the granting agencies cannot be determined at this time, although the Town anticipates such amounts, to be immaterial.
